**USDA FOREST SERVICE WILL HOST PUBLIC EVENTS ON DEVELOPMENT OF THE NEW PLANNING RULE**

WASHINGTON, Feb.24, 2010--USDA Forest Service Chief Tom Tidwell today announced a series of events to provide opportunities for public discussion on the development of a new Forest Service Land and Resource Management Planning Rule (planning rule). The Forest Service will host a national science forum, three national roundtables and nine regional roundtables.

Providing multiple opportunities for public participation ties directly to President Obama's call for open government that is transparent, participatory and collaborative, and illustrates Forest Service commitment to engage the public in the development of a new planning rule.

"We encourage broad participation in the creation of our new planning rule," said Tidwell. "Through collaboration we will be able to better address the current and future needs of the National Forest System such as restoration, protecting watersheds, addressing climate change, sustaining local economies, improving collaboration, and working across landscapes."

Following the meetings, notes will be posted on the planning rule Web site, [http://www.fs.usda.gov/planningrule\\_to\\_allow\\_for\\_further\\_feedback](http://www.fs.usda.gov/planningrule_to_allow_for_further_feedback). [Summaries of the presentations and discussions in the science forum and roundtables, along with the individual comments received during the 60-day formal comment period on the Notice of Intent, will be used to develop the proposed rule and a draft environmental impact statement.](#)
